

# EQUAL RIGHTS AMENDMENT & ABORTION

**The Equal Rights Amendment (ERA) if ratified would amend the United States Constitution. The ERA would be used by pro-abortion, activist judges to do the following in ALL 50 states:**

- Mandate Taxpayer Funding for Abortion
- Allow abortions through all nine months of pregnancy
- Eliminate the Ban on Partial Birth Abortion
- Eliminate the Pain-Capable Unborn Child Protection Act
- Eliminate the Unborn Child Protection from Dismemberment Act
- Eliminate Women's Right-to-Know Laws
- Eliminate Parental Notification and Consent Laws
- Eliminate any other protective pro-life legislation

**While it is great that Kathy Tran's egregious bill HB 2491 died in committee, the Equal Rights Amendment is still a threat. It will bring all that Tran's bill would have and more. If it passes, not only will Virginia suffer, but the entire nation will be like New York State.**

Pro-Abortion Groups have used state level ERA's to achieve these goals already in New Mexico and two other states. They have just launched a lawsuit in Pennsylvania to do the same thing there.

The deadline to pass this version of the ERA has expired and not enough States have ratified it. **However, pro-abortion ERA activists are trying to retroactively extend the deadline, forbid any state from rescinding their ratification and get a court to rule the ERA has been approved.** But they need one more state to pass it first.

We must defeat the ERA and stop the New York Law of Abortion-on-Demand through all nine months of pregnancy from becoming the Law of the Land.

**Help VSHL Stop the Pro-Abortion ERA.
